Orrine for Drink Habit

TRY IT AT OUR EXPENSE

We are in earnest when we ask you to give ORRINE a trial. You have nothing

to risk and everything to gain, for your money will be returned, if after a trial,

you fail to get results from ORRINE,

This offer gives the wives and mothers

of those who drink to excess an oppor-

tunity to try the ORRINE treatment,

It is a very simple treatment, can be given in the home without publicity or

loss of time from business, and at a small price.

ORRINE is prepared in two forms:

No. 1, secret treatment, a powder; OR-RINE No. 2, in pill form, for those who

desire to take voluntary treatment. Costs

only \$1.00 a box. Come in and talk over

matter with us. Ask for booklet

[Seal] HENRY HUTCHINSON, Clerk Circuit Court Putnam Co. Fin By Henry Hutchinson, Jr., D. C.

Walton, the undersigned, was appointed special Master in Chancery to sell the real and personal property, hereinafter described, shall offer for sale, at public auction, for cash, to the highest and best libiter, at the front door of the Court House in the City of Palatia, County of Pattann and State of Florian, on the first Menday in December, A. D. 1912, the same living the second day of becember, A. D. 1912, during the legal hours of sale on that this, the following described real and personal property mentioned in the bill of complaint, in said cause. All being in the County of Pattann and State of Florida, and more particularly described as follows, to-wit:

All the following described hand, situate in the County of Pattann and State of Florida, being Block Seven (7) of the Town of Interfaceben on file in the Clerk's Office, Pattann County, Florida, and also all the goods, wares, merchandise, stock and fixtures located upon the above Germany has added another to its Het of distinctions. It has produced the perfect truant. A boy of Dortmund was transferred from one school to another; he found out that his name was not entered on the register. That was four years ago. Since then he has gone from home every morning with his bag of school books, and each evening at the appointed hour he has returned. It has now been discovered that the new school has never seen him, and that he has had four years of vagabondage

## GREEN FRUITERS' FINISH AT HAND.

MARKET DEPRESSION TO REACT IF GROWERS FIRM.

Temple Urges the Grower to Demand a Dollar a Box on the Tree -Market O. K.

(From the Tampa Times.)

General Manager Temple of the Florida Citrus Exchange is firmly of the opinion that there will be a number of "busted" orange speculators in the state if the growers will now adopt the wise course of sitting tight and holding their fruit until it is worth something, which happy period Temple points out is bound to come when it is fully ripe.

Mr. Temple believes firmly that the rushing of green fruit to the northern markets as soon as the gates were down on October 1 was a scheme on the part of the small speculators to break the market. How successful it was is known to all.

#### Sees Scheme of Speculators.

The market once broken, the small speculators flooded the markets with letters offering fruit at \$1.25 to \$1.40 a box, November and December delivery. To make good on this they must buy the fruit at prices on the trees not to exceed sixty cents a box. At this very moment they are scouring the back counties of the fruit belt trying to do this, and filling the air with lies about how the exchange has broken down the market and intends to keep it down for the balance of the season.

Chase points out that the only way to handle these fellows is to refuse them fruit at less than a dollar a box on the trees. He firmly believes the prices will go up and that there will be a good market at good prices for all the good fruit the state will produce. There will be no market for green fruit and but little for poor fruit.

#### Predicted Green Fruiters' Action.

"During the closing days of September," said Temple this morning, "we predicted, in an interview in The Times, that we feared a number of short-sighted dealers who were without accurate market information would take advantage of the loopholes furnished them at the Gainesville convention, and begin shipping out large quantities of immature grapefruit. We knew that if they did do this they would demoralize the grapefruit markets of the country.

"We further stated that the indications pointed to the shipment of 500 cars of grapefruit by these little operators during the first week of the month. We said also that if they adopted that policy and continued the reckless and indiscriminate shipping of immature grapefruit we would see grapefruit sell as low as \$1 before Christmas.

"In point of fact only about 200 cars were shipped during the first week in October, for which, in the language of Mr. Post, 'there was a reason'. Practically all over the citrus belt of the state it rained almost the entire first week of October, so it was almost impossible to pick fruit and in spite of this about 200 cars were moved, which shows most of these 200 cars were picked and ready to move before the open season provided for by the Gainesville convention.

#### Grapefruit Sold at Forty Cents.

"Now it is a notorious fact that grapefruit did sell as low as forty cents a box, delivered in Philadelphia in October. If the movement of 200 cars produced this result, what would have been the result had weather conditions permitted unlimited shipments by the minor factors having such plans in view? We maintain that the position taken by us in that interview has been amply justified by the results.

"The unfortunate part of that interview, however, is that it has been so garbled and distorted by the same parties whom we hold responsible for the conditions we fear that they have led many growers to believe:

"First-That the exchange caused the downfall of the markets.

"Second-That said downfall would continue. In point of fact at the same time green grapefruit were selling in Philadelphia at forty cents a box, the exchange was marketing sweet, well colored grapefruit at \$3 a box, f. o. b. packing house in Florida. The exchange has not taken a single order for grapefruit up to the present at less than \$2 a box f. o. b. packing house, and has been steadily marketing sweet oranges at \$2 per box f. o. b. Florida, in the face of a flood of quotations from small independent operators ranging from \$1.25 to \$1.35 per box f. o. b. Florida for November and December shipments, quotations guaranteed against decline.

#### Growers Should Hang On.

"The object of this interview is to assure the legitimate growers of the state of Florida that the market has not gone to pieces for good fruit and that there is not the slightest danger it will go to pieces for good

"Any grower having oranges on the trees who sells them for less than \$1 a box on the trees will be making a foolish bargain, because they will be well worth that and more when they are really ripe and ready to ship. Any grower who allows the little fly by night dealer to talk him into the belief that market conditions, present or prospective, are such that he needs to sell his fruit to them at any such foolish prices as sixty or seventy-five cents a box on the tree is simply falling into the trap these little irresponsibles have cunningly laid for him by deliberately producing the present ruinous prices for green fruit which the irresponsibles have themselves brought about by shipping the green grapefruit with this very object in view.

"We have too much confidence in the common horse sense and shrewdness of the Florida orange grower to believe he will allow himself to be taken advantage of by any such transparent skin game as this.

"Your oranges and grapefruit are not costing you a cent hanging on the trees. Let them stay where they are until they are ripe, and when the ripe fruit begins moving to the great markets in ample quantities and enters into competition with the sour early navels California is preparing to ship, you will realize the true benefit of the action of the Florida Citrus Exchange along these lines.

### Will Ruin Some "Tin Horn."

"Moreover, you will then find a lot of little tin horn Florida orange speculators ruined and out of the deal endeavoring to buy your oranges at ruination prices which they will have to do to fill the orders they have already taken with the calm assurance that they can fool a "cracker" to give them his fruit for nothing to fill these orders on which they depend.

"The Florida citrus undustry is all right; the market is all right for ripe fruit and will be all right. You produce the finest, juiciest, sweetest fruit in the world and you are entitled to a good price for it. You will get it if you ship when it is fit to ship.

"We will admit that the consuming trade at the other end won't take and won't pay for green, sour Florida oranges, and we will admit that the Florida Citrus Exchange is responsible for this condition, and we are proud of it. 'If this be treason, make the most of it.' "

# NATIONAL MILITIATO BE READY FOR WAR

ACTING SECRETARY OLIVER IN VITES CO-OPERATION IN WAR COLLEGE PLANS.

## WANT SYSTEM OF DIVISIONS

Important Move Proposed by War Ds. partment to Governors of All States.

Washington.-One of the most in portant moves in recent years to prepare the national militia for use in time of war is proposed in letten addressed by Acting Secretary Oliver to the governors of all the states and territories, inviting their co-oper ation in the war college plans for the organization of the militia into sixtee tactical divisions.

The letters point out that if the militia is to be used as a fleid force effectively in war time, it can only be done by this system of divisions and that to insure the proper working of the plan all of the details should be worked out in time of peace.

In the outline of the sixteen & visions no place is given to separate companies of infantry, which, it is said, should be absorbed into regiments or other larger organizations. Field armies would be formed by the grouping of two or more divisions of the militia or by combining one or two divisions of milita with one of regular troops.

Regular organizations would form the fourth brigade of any division as signed to a field army, for the reason that the organized militia is localized while the regular army must go any where upon call.

Some money will be available for the assistance of state authorities. The war department also proposes to de tain Inspector instructors to assist the state officials and war material for the militia will be distributed and stored in suitable depots to be at hand locally when mobilization is ordered. General Oliver plans to have the first four of the sixteen tactical divisions composed entirely of regular troops, with the District of Columbia militia assigned to duty as regulars.

#### MOTHER AND CHILD KILLED

Mrs. Bessie Lyic and Daughter An Thrown Under Trolley.

Atlanta.-Catapulted into the ar from the tonneau of an automobile and hurled underneath the tracks of a trolley car when it collided with ber husband's machine directly in the front of their Luckie street home Mrs. Bessie Lyle and her twoyear old daughter, Margaret, were killed as they started on a pleasure trip to Athens.

Her husband, W. Richard Lyle, who was at the steering wheel of the fatal auto, and their other daughter, Olivia, who sat beside her father upon the front seat, escaped unburt

Two wheels of the forward trucks of the trolley car passed over the legs of the little girl, severing them near the abdomen. The body of her mother was wedged underneath the front platform and dangerously near the trucks. Mr. Lyle, seizing the small tire pack from the toolbox of his wrecked automobile "lacked" ap the forward end of the car to extra cate his injured wife.

With Iron Hand Madero Strikes. Mexico City.-The Mexican government is determined to carry out the threat recently made to resume the tactics employed so successfully by General Robles in the state of More los, some months ago, is indicated by the report of the war department atnouncing the total destruction of sereral small towns and villages in the northern mountains of Gavaca where the revolution has been rampant, Two of the places destroyed were the strongholds of the Zerrano Indians. Convinced that the inhabitants of these towns were completely in accord with the rebels, orders were is sued for their destruction. Without even calling upon the inhabitaints to withdraw, the tartillery began its work and ceased only when the towns had been reduced to a mass of rulus.

Father Causes Boy's Death. Mount Vernon, Ind .- Parental admonition resulted in the death of Ralph Conner, aged 11. The boy and his brother, McKinley, aged 14, were going nutting. The father orged the older boy to take a gun with them to be used in case they should meet a mad dog that had been terrorising the neighborhood. The boys had filled up their sacks, and McKinley had picked up the gun to start home, when it was discharged, the centery striking the younger brother in the neck. He died in 30 minutes.

Storm Sweeps Over Jamaica. Kingston, Jamaica. - The storm which struck sections of Jamaics in dicate that great damage has been done. Banana planters seem to be the heaviest losers, although railway and telegraph properties also have suffered greatly. Telegraph and rail road communication generally is de moralized, making it difficult to estimate the exact state of affairs is parts of the island. Reports say hurricane passed over the northwest coast of Jamaica
